Social Care & Companionship

The comfort we feel in our home is like no other. It is the place that we feel most relaxed and happy. However, as family members grow up and move in to their own homes, you may find your house isn't as busy as it once was and there aren't as many people around to give you that extra hand when you need it.

Supported Living

Our Supported Living Services is designed to provide 24-hour care to help people with reduced ability to care for themselves, enabling people to continue living in their own homes.

Mental Health

Personalised support for every individual. We all value our independence but sometimes a short or long-term mental health condition can make it more challenging to live independently. In these circumstances, Perfect Quality Care can make a real difference to your life and well-being.

Together, we will look at ways we can support you, then help you make the choices that give you control over your life and your mental health. If your needs change, we'll adapt our home support to meet your new circumstances.

Recruiting Staff

Recruiting the right people is a fundamental part of our success. Our care teams not only need knowledge, skills and experience in the ways of best practice, but also need empathy, warmth, compassion and excellent listening and communication skills. A genuine understanding of service users' needs are required to ensure that people benefiting from our services have the best quality of life possible.
